2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

The mission of Pivot Charter Schools is to transform students' (in grades K-12) experience in education. By establishing strong relationships, providing a caring environment, and building the skills required to be an independent learner, Pivot Charter Schools promotes and graduates confident, self-actualized humans. Using an individualized online curriculum coupled with personalized paths, students in grades K-12 receive ongoing support, communication, and oversight.

Pivot Charter School offers a unique and customized tuition-free public education for students in grades K-12. Our program allows students to access their courses from the comfort of their own homes or from our safe and welcoming resource centers;

2024-25 School Description and Mission Statement

Pivot is truly a Flex Blended Learning Program. Students at Pivot Charter Schools come from a wide range of backgrounds. They enroll for advanced placement courses, flexibility in scheduling, one-on-one attention, small group learning, to make up credits, and to graduate early as well as to take college courses. Many elementary students enroll in Pivot Charter Schools for the small, unique environment that supports their family and individual student's needs. The diversity of our student body is one of the things that makes the Pivot experience unique.

The K-5 program functions as a "homeschool" independent study initiative, where parents take on the role of learning coaches to aid students in learning from the online curriculum. The optional supplemental on-site resource center program incorporates hands-on projects, opportunities for socialization, and artistic endeavors. Using a highly acclaimed online curriculum supplemented with additional materials and manipulatives, our K-5 program is further enriched by a credentialed teacher's guidance, support, remediation, and workshops. In the elementary program, parents play a pivotal role in their child's education with the experienced direction, oversight, and support of a credentialed teacher. Pivot Charter School strives to ensure that students attain proficiency and demonstrate a mastery of the grade-level material.

Pivot Charter Schools recognize that students in grades 6-12 working online and in independent study must have a significant level of independence or support at home in order to be successful, but not all students have that self-motivation, support, or independence. Therefore, Pivot has developed onsite programs, an online workshop, and a tutoring schedule to help students meet their educational goals using the online curriculum. These workshops and tutoring sessions are taught by credentialed teachers in their subject areas and are created to ensure that students have the support they need to learn more and struggle less. The supplemental programs at Pivot also include regular social activities such as barbecues, movie afternoons, and food truck days as well as numerous field trips so that students have the opportunity to build a school community and socialize with one another.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Pivot Charter School utilizes online curricula for all core subjects. There are sufficient materials for all students. Additionally, Pivot Charter Schools uses supplemental curricula, through i-Ready, IXL, and Lexia, to provide students with diagnostic assessments and additional instruction and remediation in Language Arts, Mathematics, and Reading. Core courses are provided by Accelerate Education for grade levels K-5 and Apex Learning for grade levels 6-12. Students in grades 6-12 also have access to a variety of electives and CTE courses through eDynamic Learning.

School Facility Conditions and Planned Improvements

Pivot Charter School San Diego is an independent study charter school and is not required to complete the FIT but the facility works with a management company that responds to any repair requests. They also oversee the regular outside grounds maintenance, cleaning services for the bathrooms and common hallway areas shared by all tenants, and quarterly air-duct filter cleaning for the entire building. The Pivot Site Coordinator and Site Administrator have been overseeing repairs and maintenance specific to our tenancy such as changing light bulbs, small repairs, carpet maintenance, and regular biweekly cleaning. All building improvements have been thoroughly inspected and approved by the City of San Marcos. Upon doing our own facilities inspection we report the following information: the overall cleanliness of the site is good, there is no indication of

School Facility Conditions and Planned Improvements

pest or vermin infestation, and the doors and windows are all working properly and securely. The staff and students participate in fire drills, earthquake, and secure lock-down drills annually. In addition, Pivot Charter Schools is required by the risk management company to conduct a review of the facilities, similar to the FIT, annually.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Pivot Charter School hosts multiple information nights each year as well as weekly online parent trainings. The school also hosts parent "homerooms" or professional development on various topics throughout the year such as "How do I know how my student is doing and how can I support them." There are 8-12 community events that are held annually in which parents can participate. Teachers communicate with parents weekly. Parents are encouraged to attend many of the field trips and assist with community events such as barbecues and hikes. Parent satisfaction surveys are distributed each year, the results of which are reviewed and shared with the staff and Board as well as influence our LCAP. Parents may participate in Governing Board meetings throughout the year.

Although the physical location of the Governing Board meetings is now legislatively required to be in the county where Pivot Charter Schools serve the highest number of students (Sonoma County), parents and the public are welcome to access and participate in all meetings, by utilizing video conferencing technology which is provided at each Pivot Charter School. A Pivot staff member will be present at each video conference location to ensure the technology is working properly, and that speakers participate when desired. Parents and members of the public can also participate live in all Board meetings from the comfort of

2024-25 Opportunities for Parental Involvement

their own homes via video conference. Parents and staff do not have to travel to have access to the Board members or the Board meetings.

2024-25 School Safety Plan

Pivot Charter School's current school safety plan includes emergency procedures for fire, earthquake, and lockdown in addition to many other items such as suicide prevention and dealing with airborne pathogens. Additional information is also included regarding student mental health crisis situations. The safety plan details emergency exit plans, emergency gathering locations,

building floor plans, emergency contact lists, and emergency resource lists. Details of all available emergency equipment including First Aid Kits, Lockdown Kit, Field Trip First Aid Kits, Staff first aid training documentation, and emergency drill logs are kept by the site safety monitor. Staff is trained and certified bi-annually in CPR and First Aid Training. Additionally, Pivot has implemented a universal communication system that can be used as emergency communication with families called ParentSquare.

The school safety plan is updated and reviewed with staff annually at the beginning of each school year in September and throughout the school year, as necessary. The last review occurred in March 2023.

Fiscal Year 2023-24 Types of Services Funded

Pivot Charter School provides an independent study program, with online curricula supplemented by site-based offerings at the school’s resource center. The school offers additional resources and programs to support the needs of socioeconomically disadvantaged youth, foster and homeless youth, English Learners, and students with special needs.

Pivot has always provided computers to students who wish to borrow them from the school. However, due to COVID-19 and other economic factors impacting families, there has been a large increase in the need for Chromebooks and Wi-Fi hotspots to enable all students to successfully engage in Pivot’s educational programs remotely and Pivot has been purchasing more of the devices to fill the need.

The majority of school revenues are used to fund instructional programs and to support teachers in customizing Pivot’s programs to meet the needs of each individual student. These supports include but are not limited to: professional development opportunities, resources for implementing content standards, training for our online curriculum systems, guidance through the MTSS process, support in assessing and supporting the mental health of students, training in working with students with disabilities, resources for supporting English Learners, and assistance with behavioral intervention strategies.

Fiscal Year 2023-24 Types of Services Funded

A wide variety of curricula and assessment tools are used to tailor Pivot’s educational programs to the needs of individual students. All students complete benchmark assessments multiple times per year so that teachers can monitor their progress in core skills. Based on each student’s progress as well as the results of assessments and meetings with school personnel, supplemental curricula are implemented to target learning loss and gaps in basic skills, to advance the acquisition of English language skills for English Learners, to provide accommodations and modifications for students with special needs, to support individual educational goals, and to enrich students’ educational experiences. Pivot utilizes targeted remediation curricula for English Language Arts and mathematics, provides Career Technical Education pathway options, offers Advanced Placement courses, and encourages concurrent enrollment in community colleges. Pivot also offers fee waivers for various exams, such as SAT/ACT/AP exams, so that socioeconomically disadvantaged students have equitable access to higher education options.

Supplemental resource center programs have been an integral part of Pivot’s blended learning model. Not all students participate in resource center programs, but it is highly encouraged and is effective in facilitating student and parent engagement. Pivot’s resource center is used to provide targeted academic support for students, facilitate unique educational experiences via field trips, provide hands-on project-based learning opportunities, provide internet access for students, hold back-to-school information nights, and establish a strong community among families and school personnel. The school also provides bus passes to socioeconomically disadvantaged students to ensure equal access to resource center programs for all students.

Professional Development

Pivot Charter School teachers receive five to seven preparation and staff development days before the school year starts. This includes training in the use of the online curriculum and assessment systems by the curriculum training staff, special education, MTSS, and differentiated instruction, along with supporting English learners. Teachers are trained to serve students in a learning lab environment where students work primarily on computers. Weekly staff meetings are held as well as monthly supportive staff training for new teachers and existing staff that need extra onsite training. Monthly trainings include topics such as supporting students in virtual learning, MTSS, using assessment data to inform instruction and developing educational programs, student goal setting, service learning, teaching writing strategies, and comprehension, SBAC test-taking strategies, student-led conferences, ELD and end-of-year close-out. Other opportunities include various workshops and attendance at conferences such as the annual Consortium for Independent Study, Charter Schools Development Center Conference (CSDC), California Charter Schools Association Conference (CCSA), Small School Districts Association Conference, and College Board Forum. Teachers are encouraged to find and attend professional development opportunities covering topics that resonate with their interests and relate to the students with whom they currently work. Recent training and workshops attended by Pivot teachers have covered a wide range of topics such as Social Emotional Learning, Career Technical Education instruction, Restorative Practices, Culturally Responsive Teaching, Trauma Informed Schools, classroom management, behavioral intervention strategies, youth mental health, MTSS, working with emotionally disturbed youth, and fostering positive school communities.
